## What other Remote Data Backups Resellers are saying...

“There's not a better solution for safeguarding your computer against technical, human, laptop, and natural disasters than RDB. With the 30-day free trial, it really sells itself.”

— Mark Aurand, CM IT Solutions

“Easy to set up, easy to back up & restore. And best of all, they pay commissions right away. I highly recommend it.”

— Donald Dickerson, Computer Troubleshooters

“RDB is a great product which helps us provide disaster prevention and recovery services to our clients. Having this tool in our arsenal of services has helped us penetrate our target market and provides a solution that is in high demand.”

— Steve Schmalz, Expetec Technology Services

“I ran it through some tests and found it very easy to use and far faster than I would have expected. I did call the support line with a few questions last week. All my concerns were addressed and I found the software exceeds my expectations.”

— David Bradanese, Padgett Business Services

“Remote Data Backups is a product that has worked very consistently for our customers throughout the years. It is very user-friendly, reliable and a must have for anybody who has data that they could not be without.”

— Tim Johnson, Geeks on Call - Director of Operations

“We use Remote Data Backups exclusively in our own store. It has replaced our tape drive with good reason”

— Brian Witowski, Data Doctors

“Dan Dugal and his team at RDB are awesome to work with and you simply will not find a company with their level of client-friendly applications, redundant systems, competitive price structure, and 24/7 customer service!”

— Tom Cornelius, TeamLogic IT

“Thanks for providing this revenue source!! It really helps get a foot in the door.”

— Susan Schrank, WSI Internet Consultants
